

Daydreams of Quilts

Quick Baby Quilt Tutorial – Quilt size is 36” x 45”

For this quilt you will need:

- 8 fat quarters
- Half a yard of binding
- 1.5 yards of backing fabric
- 40” x 50” piece of quilt batting

From each fat quarter cut ten 5” squares and ten 2.5” squares

Create sets of ten 5” squares and ten 2.5” squares for each row. There will be eight vertical rows of ten squares in this quilt.

Sew the 2.5” squares in the corners of the 5” squares by sewing diagonally across the centre of the 2.5” square to create a corner square triangle on each square. Trim $\frac{1}{4}$ ” from the seam line and press the seam towards the triangle. Pay attention to the orientation of the fabrics if you are using directional fabrics. You will sew five with the corner squares in the top right corner and five with the corner squares in the bottom right corner for each row. (If using non directional fabrics it does not matter which corner you sew in as you can rotate the blocks.)

Arrange the squares in vertical rows of 10 squares each. Where the corner square triangles meet they will create a flying geese shape.

See quilt diagram on next page.

Feel free to switch up some of the fabrics in your rows to add interest. You may even want to change the direction of some of the flying geese.
